Before we go down the rabbit hole of studying our 1.c3 Venom theory, I'd first like to showcase to you some evidence of what playing 1.c3 Venom is all about! If you've been an avid studier of the mainlines for a long while, there may still be some doubt in your mind that 1.c3 may not live up to the expectations presented in my introduction. However, I hope by the end of these two model games, you will understand the power of what playing a sound, but offbeat, opening system can achieve! Several months ago, I met up with an old chess friend of mine for some casual blitz

chess. I'd say I was always roughly a couple hundred ELO higher rated than him, but that doesn't mean I'd win every game against him! However, that evening, I was on a hot streak, and had won my first two blitz games (5|0) against him. As a result, I decided to experiment with a Caro-Kann with Black for our third game. **1.e4 c6 2.d4 d5 3.Nc3 dxe4 4.Bc4 Nd7**

Before we go down the rabbit hole of studying our 1.c3 Venom theory, I'd first like to showcase to you some evidence of what playing 1.c3 Venom is all about! If you've been an avid studier of the mainlines for a long while, there may still be some doubt in your mind that 1.c3 may not live up to the expectations presented in my introduction. However, I hope by the end of these two model games, you will understand the power of what playing a sound, but offbeat, opening system can achieve! Several months ago, I met up with an old chess friend of mine for some casual blitz chess. I'd say I was always roughly a couple hundred ELO higher rated than him, but that doesn't mean I'd win every game against him! However, that evening, I was on a hot streak, and had won my first two blitz games (5|0) against him. As a result, I decided to experiment with a Caro-Kann with Black for our third game. **1.e4 c6 2.d4 d5 3.Nc3 dxe4 4.Bc4 Bf5 5.f4N**

Blitz 3min

B15: Caro-Kann: 3 Nc3: 3...g6 and 3... dxe4 4 Nxe4 Nf6 5 Nxf6+ exf6

Before we go down the rabbit hole of studying our 1.c3 Venom theory, I'd first like to showcase to you some evidence of what playing 1.c3 Venom is all about! If you've been an avid studier of the mainlines for a long while, there may still be some doubt in your mind that 1.c3 may not live up to the expectations presented in my introduction. However, I hope by the end of these two model games, you will understand the power of what playing a sound, but offbeat, opening system can achieve! Several months ago, I met up with an old chess friend of mine for some casual blitz chess. I'd say I was always roughly a couple hundred ELO higher rated than him, but that doesn't mean I'd win every game against him! However, that evening, I was on a hot streak, and had won my first two blitz games (5|0) against him. As a result, I decided to experiment with a Caro-Kann with Black for our third game. 1.e4 c6 2.d4 d5 3.Nc3 dxe4 4.Bc4 Nd7N

B15: Caro-Kann: 3 Nc3: 3...g6 and 3...
 dxe4 4 Nxe4 Nf6 5 Nxf6+ exf6

Before we go down the rabbit hole of studying our 1.c3 Venom theory, I'd first like to showcase to you some evidence of what playing 1.c3 Venom is all about! If you've been an avid studier of the mainlines for a long while, there may still be some doubt in your mind that 1.c3 may not live up to the expectations presented in my introduction. However, I hope by the end of these two model games, you will understand the power of what playing a sound, but offbeat, opening system can achieve! Several months ago, I met up with an old chess friend of mine for some casual blitz chess. I'd say I was always roughly a

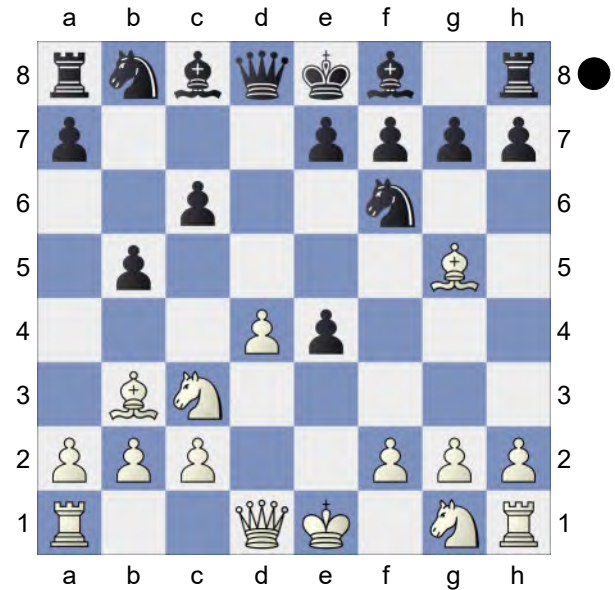

couple hundred ELO higher rated than him, but that doesn't mean I'd win every game against him! However, that evening, I was on a hot streak, and had won my first two blitz games (5|0) against him. As a result, I decided to experiment with a Caro-Kann with Black for our third game. **1.d4 d5 2.e4 c6 3.Nc3 dxe4 4.Bc4 b5N**
